

Introduction to BFSI-Tech

Boost Your Career Prospects

BROCHURE

The BFSI-tech market in India is expected to grow at a CAGR of 22.7% to over INR 6,207 billion by 2025.

Embrace the growing **BFSI-tech community**

Today, there are more than **10,000 BFSI-tech job vacancies** in various companies across India. With a 23% higher BFSI-tech adoption rate than the rest of the world, India is poised to generate tens of thousands of more BFSI-tech jobs in the coming years. Early entrants to this opportunity will have a head start in building a resilient career in the industry and set themselves up for tomorrow's success, today. The time to plan and ride the BFSI-tech wave is now, and NSEIT is here to help you begin this career journey with a 3-day workshop on **Introduction to BFSI-tech**. Here is a snapshot of what the workshop offers and how it will help your prospects.

Why **BFSI-tech**?

BFSI-Tech stands for financial technology. It refers to the development, deployment, and use of technology for delivering financial services. BFSI-Tech encompasses a broad array of business domains, such as:

 1 Payments Payments processing, card developers, money transfer platforms, and tracking software	 2 Banking Digital-first banks or companies digitizing banking services for credit and debit	 3 Digital lending Companies creating new solutions for personal or commercial lending	 4 Wealth management Personal finance tools, investment and wealth management platforms, and analytics tools
 5 Insurance Companies selling or distributing insurance digitally or providing data analytics and software for (re) insurers	 6 Capital markets Sales and trading, analysis, and infrastructure tools for financial institutions	 7 SMBs Companies focused on providing solutions to small- and medium-sized businesses	 8 Real estate Mortgage lending, transaction digitization, and financing platforms
